COLLEGE POINT, N. Y. September 10th, 1924.

SPECIAL WHOLESALE LIST.

The great success we have obtained for several years with our Indica Azaleas has induced us to pay special attention to their culture. Grown from our government restricted stock, which we are permitted to sell this late Fall, after five years restriction.

As we have a larger stock than we need for propagating purposes, we offer some of them for sale, giving varieties, sizes and prices of any varieties on our list, upon application. These are good plants for growers wanting to get in the growing, either from cuttings or grafting wood. Of the varieties named and described below, we have approximately fifteen to twenty thousand on hand, from 3" diameter of crown up to 5", for growing on. From 6" on, all plants offered are perfectly budded and shaped for Christmas and late flowering, up to Easter and later.

Christmas varieties marked X, Easter varieties E.

AZALEA INDICA.

Blushing Bride, salmon, E. (new)
 Daybreak, salmon, E. (new)
 Charles Enke, pink & white, E.
 Mme. Petrick, fine rose, X.
